AMENDMENT IN RESPONSE TO PAPER # 5

OFFICIAL

Commissioner for Patents
Washington, D.C. 20231

Sir:

Responsive to the First Action of 27 AUG. 2002, the term for response to which expires 27 NOV. 2002, please amend as follows:
IN THE SPECIFICATION:

Change the paragraph at page 5, lines 1-5, from:

"Therefore, the vaporization heat quantity of the liquified gas is small and a proper feeling of cooling cannot be obtained.

On the other hand, when the ratio is more than 5.0, the injection time is long or the stop time is short. Therefore, the vaporization heat quantity of the liquified gas is too large so that the supercooling is caused to feel a pain."

to:

131 --Therefore, the vaporization heat quantity of the liquified gas is small and a sufficient feeling of cooling cannot be obtained.

CERTIFICATE OF FACSIMILE TRANSMISSION
